Projects

LabWare: Clinical Pathology Solution

LabWare is an internet based private web application. The objective of the project work is to develop effective software for maintaining the information relating to the lab details.

HTML, CSS, Javascript, jQuery, PostgreSQL, Express, Node

Portfolio Website

Developed a responsive and visually engaging portfolio website to showcase my skills, projects, and professional background. The site features dynamic project listings, a contact form, and a clean UI/UX design optimized for accessibility and performance.

HTML, CSS

Whisper

Developed a web application that allows users to anonymously share secrets and life experiences. Implemented user-friendly UI and secure, anonymous data handling using hashing and salting.

PostgreSQL, Express, Node.js, OAuth, HTML, CSS, Javascript

Travel TRacker

A web app where users can log the countries they've visited, which are then highlighted on an interactive world map. This allows users and their travel buddies to visualize and share their travel journeys in a personalized and engaging way.

HTML, CSS, Javascript, PostgreSQL, Express, Node.js

Other Projects

Quiz Game, Simon Game, WeatherApp, Calculator, Mondrian Painting, TO-Do List, Blog Website.
